**LinkedIn:** linkedin.com/in/yash-narwar-ba1a9024a | **GitHub:** github.com/YashNawar1

### Professional Summary

Full Stack Developer with expertise in JavaScript and TypeScript, specializing in creating scalable web applications using frameworks like Node.js, Express, and Next.js. Experienced in both client-side and server-side development, with a focus on responsive, user-friendly interfaces. Proficient in full authentication systems, including email verification and password reset.

### Skills

**Programming Languages:** JavaScript, TypeScript

**Frameworks & Libraries:** Node.js, Express, Next.js, React, Redux, Zustand, Material UI, Tailwind CSS, 3D.js

**Databases:** MongoDB, SQL

**Data Structures & Algorithms:** Proficient in DSA concepts and implementation

**Testing:** Jest

**Tools & Technologies:** Git, Docker, Zod (TypeScript library)

**Soft Skills:** Strong communication, Team player, Avid reader

### Professional Experience

#### Full Stack Developer

*Freelance | Jan 2022 - Present*

- Developed and maintained web applications, including a chat app, Twitter clone, and food delivery app using Node.js, Express, and MongoDB.
- Created responsive UI components with React and Next.js, leveraging Tailwind CSS and Material UI for design.
- Implemented full authentication systems, including email verification and password reset, using JWT and OAuth2.
- Built an AI-powered image generation app and Duolingo clone using Next.js, integrating APIs for enhanced functionality.

### Projects

#### Chat Application

Real-time chat application with Node.js, Express, and Socket.io, featuring private messaging, group chats, and file sharing.

#### Twitter Clone

Twitter clone with user authentication, tweet functionality, and real-time notifications using Next.js and MongoDB.

#### Food Delivery App

Full-featured food delivery app with search, order tracking, and payment gateway integration using React, Node.js, and SQL.

#### Trello Clone

Trello clone with drag-and-drop functionality, task management, and real-time updates using React, Redux, and MongoDB.

#### Airbnb Clone

Airbnb clone with property listings, booking system, and user reviews using Next.js, Tailwind CSS, and MongoDB.

#### AI Image Generation App

AI-powered image generation app using Next.js, integrating a machine learning model API for image creation.

#### Duolingo Clone

Language learning app with interactive lessons and progress tracking using Next.js and Zod.

### Education

#### Bachelor of Arts in Economics & English

*Dr Bhimrao Ambedkar University | Graduation Date: June 2022*

**Relevant Coursework:** Software Engineering, Data Structures, Algorithms, Web Development
